

# SCHOOLS

Schools in the UK are eligible to register a .sch.uk domain name of their choice. These domains follow the format school name.area.sch.uk. For example a .sch.uk domain name could look like st-marys.oxon.sch.uk

## APPLYING FOR A SCH.UK

Schools can apply to register a domain name if they do not already hold one. Applications should be made in writing (as signed request on the letterhead of the school/appropriate controlling authority) to Nominet detailing the following:

- School name
- ID number
- Postal address
- Contact name
- Contact email address
- Preferred domain name
- Registrar's (hosting ISP's) tag

Where groups of schools are forming a consortium for the centralised provision of teaching or IT services, either led by a Local Authority or a school group, a .sch.uk domain name can be registered. The Local Authority or lead school in the consortium should apply for the domain name using their name and contact details for the registration process.

## FEES

New schools in England, Scotland, Wales, independent schools, school consortia and schools that wish to change their existing domain name will need to pay the registration fee of £3.90 + VAT. We will invoice the applicant directly and register the domain name on receipt of payment.

Sch.uk domain names are not currently subject to a renewal fee.

## WHERE TO APPLY

Applications for new domains should be made in writing to:
